(CNN)K-pop girl group Blackpink has released a new song, "Pink Venom," and an accompanying music video for it. The song is from the group's forthcoming sophomore album, "Born Pink," which is set for release on Sept. 16. Blackpink, made up of members Jennie, Jisoo, Lisa, and Rosé, recently told Rolling Stone how they collaborate on their music. "We don't just receive a completed song," Jisoo said. "We are involved from the beginning, building the blocks, adding this or that feeling, exchanging feedback—and this process of creating makes me feel proud of our music. If we just received pre-made songs, it would feel mechanical. I feel more love for the process, because we say, 'How about adding this in the lyrics? How about adding this move in the choreography?'" Blackpink's first LP, "The Album," sold over one million copies in less than a month after its 2020 release. The new album was announced last week. The group also has an upcoming world tour. If you're a BLINK, you may be wondering what BLACKPINK's "Pink Venom" lyrics mean in English and what to expect from their new era. "Pink Venom," which was released on August 19, 2022, is the pre-release single from BLACKPINK's upcoming second studio album, Born Pink, which will be released on September 16, 2022. The song is BLACKPINK's first official single since the group—which consists of members Jennie, Jisoo, Rosé and Lisa—released their most recent comeback "Lovesick Girls" in 2020. Jennie teased the group's 2022 comeback in an appearance on the variety show, The Game Caterers, in March 2022. "BLACKPINK is also making a comeback soon, I don't know if I'm allowed to say this, but since I'm the only BLACKPINK member here, I'll just say it please look forward to it," she said at the time. The group's management company, YG Entertainment, confirmed the album in a statement in August 2022. "The name for this comeback project is 'Born Pink,' which implies the identity of BLACKPINK, which is never ordinary and will exude a fatal aura," the statement read. Image: Courtesy of YG Entertainment. Born Pink by BLACKPINK "It was our sixth anniversary recently, time flies," Jisoo said at a press conference in August 2022. "Our fans! Blinks have waited for our music and waited for us, so I hope we can enjoy and have fun together for a long time." Lisa described "Pink Venom" as a way for the group to "raise expectations for the upcoming album's release and all the good songs there." The group continued, "I can't give away everything, but we want to play up our strengths and show us as we are while trying new things [on the album]. Listen to 'Pink Venom' and you'll get a clearer picture of our second album." Rosé added, "Our songwriting team played the song in the studio for us the first time, and it sounded really new to us. There were sounds we had never attempted before so we really rapidly decided to record it and wanted to perform it for everyone soon." So what are BLACKPINK's "Pink Venom" lyrics about? Read on to see what the members had to say about the song's secret meaning. What are BLACKPINK's "Pink Venom" Lyrics about? Image: YouTube/BLACKPINK. What are BLACKPINK's "Pink Venom" lyrics about? "Pink Venom" is the pre-release single from BLACKPINK's second studio album, Born Pink, which will be released on September 16, 2022. In a press conference on the release date of "Pink Venom"—August 19, 2022—BLACKPINK explained the meaning of the song and how it represents the group. "Since our album's title is Born Pink, we wanted to relay our identity in the song as much as we could," Jennie said at the time. "Since 'pink' and 'venom' have contradicting images, we thought they were kind of reminiscent of us... we are named BLACKPINK and contradiction is our charm — we wanted to show that. It's pink venom, a lovely poison, it's words that most express us." Jennie also explained later about how the "essence" of BLACKPINK is "confidence." She added, "Some worry that we might stray away from our identity, but we believe it's the most distinct and clear way to represent us." Rosé also revealed her reaction when she first heard the "Pink Venom." "I remember the first time I listened to the song in the studio; it was really new and sounds we never attempted before," she said. "I just really wanted to record the song right away and show our performance." Jisoo described "Pink Venom" as a combination of modern hip-hop with traditional Korean instruments like a geomungo, which can be seen in the "Pink Venom" music video. Lisa also discussed the "powerful" choreography in the "Pink Venom" music video, and the song's popular "fang dance" move. "We visualized a fang with our hands which most intuitively expresses the 'Pink Venom' concept; everybody can follow it easily... there's an impactful dance break at the end [of the music video], and the set is just amazing," Lisa said. The group also talked about why they aren't concerned with "breaking records." "Rather than breaking records, we have really focused on our new songs," Rosé said. Lisa also teased BLACKPINK's upcoming album and why the group chose "Pink Venom" as their pre-release single. "All our songs are really good... We wanted to show this [song] first to BLINKS," she said. BLACKPINK is also set to start their Born Pink World Tour in the fall with dates scheduled in North America, Europe, Asia and Australia. "[We're] ready to give everything we have," Jennie said. "It's our first [tour] in a very long time, so we'd like to focus on our originality and include a lot of new songs."
